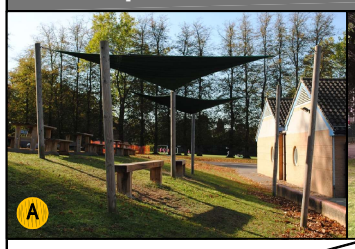
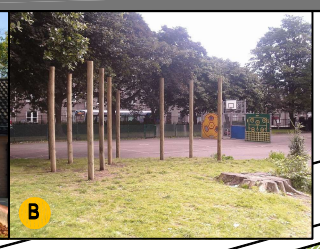
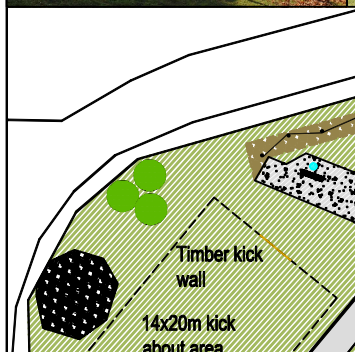
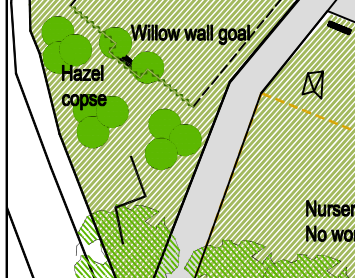
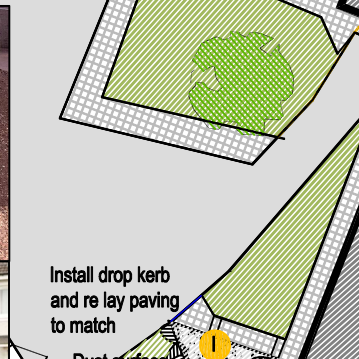
Concept Plan

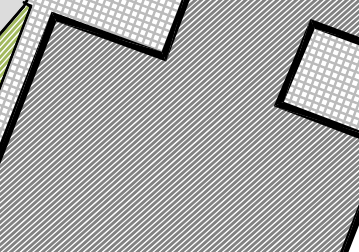












Key

- **A** Sail canopy over existing seating areas, fixed to 3m long posts. Allows for use all year round use. Canopy is easily removed when not required.
- **B** 3m long posts, used to aid with den building.
- **C** Log story telling circle with informal log seating, willow walls around and wood chip surface bellow.
- **D** Log edge for informal seating and scrambling.
- **E** Log retaining edge, creates a large area for informal seating, as well as being used to scramble over.
- **F** Felled climbing tree, can be used as an informal climbing structure
- **G** Loose materials. put walls onto the existing canopies and create areas for storage of loose materials. Valuable materials to be stored in a secure store.
- **H** Den building combining natural and loose materials.
- **I** Access improved by dropping the kerbs and providing better access around the school grounds
- **J** Change to the grass cutting schedule to allow areas of grass to grow long improving the biodiverity within the school.
- **K** Bound gravel, dust path improving access around the school, 2m wide.
- **L** 3m long timber boardwalks over existing tree roots and created a variation to the path surface.
- **M** Surface drainage basin, 500mm deep, 1;3 slope with 200mm depth gravel to the base. Water should be collected within the gravel so there is no standing water. Wetland planting aids the biodiveristy of the grounds.
- **N** Sand pit with log edge and timber stage with split level sand table inc pulley. Ramp allows access into the sand pit.

Timber kick wall
14x20m kick about area
Willow wall goal
Hazel copse
Nursery, No works.
Location of a felled climbing tree
Vertical climbing logs
Willow tunnel
Install drop kerb and re lay paving to match
Sail canopy over existing seating.
Additional informal seating/leaning equipment in quite area.
3m high poles to aid with den building.
Dust surface down slop with boulder edge
Log and boulders used to define the edge of the path.
Boulder scramble
Sleeper balance beams
Sensory garden. (Proposal to be developed after further consultation)
Kick about area
Bound gravel dust path surface under shelter.
2m wide gravel dust path surface, avoid damage to exsiting trees.
Log circle, Story telling area with woodchip surface and willow walls around
Grass allowed to grow long and increase biodiversity
Willow wall goals
Hazel copse
Walls put onto the canopy and used as storage area for loose materials.
New path with assosiated groundworks to provide access.
North
